SATURDAY JANUARY 30, 1892

TELEGRAMS

(via Galveston.)

Brussels, 28th—The *Independence Belge* states, regarding the Chilian question, that the Chilian Government is too prudent not to withdraw the aggressive language contained in Minister Matta's circular, and that the U. States Government is too generous to wage war against a weak nation. It is, therefore, of opinion there will be no war, and it adds that it will only believe war has broken out when it hears the roar of the cannon.

Shanghai 28th.—The Government has issued a decree to open an official naval school.

Berlin 28th.—Little doing on the Bourse. Business paralysed and stocks falling, owing to fresh failures in Frankfort.

Rome 28th.—The reconciliation between the Vatican and the Quirinal is spoken of in the high political circles of the Triple Alliance. The illness of the Pope and the discussions regarding his successor have brought matters to a climax. An "entente cordiale" between His Holiness and the King of Italy is almost assured. Austria and Germany are doing all in their power that this should take place. It is stated that the arrangements for this are well advanced and that the Austrian Government and the Vatican have come to terms. The Pope has already laid down the bases amongst which are included the right of the clergy to take part in the elections.

Washington, 28th—The Chilian question is just the same. No news yet known regarding the answer of the Montt Cabinet to the Ultimatum. Great anxiety prevails owing principally to the preparation for war going on in spite of the assurances of peace.

Moscow 28th.—The misery in Russia is discussed in all parts, particularly here, were it is more realised than in St. Petersburg, and here every effort is made to relieve the victims. The details from the districts where the famine is more pronounced, are every day more horrible.

Washington 29th.—A fresh message has been sent by President Harrison to the Senate with the correspondence exchanged with the Chilian Government after the Ultimatum.

This correspondence comprises:—

1st—A note of Minister Montt in Washington to Minister Blaine under date 23rd inst.

2nd—Answer of Minister Blaine under date 27th.

Despatch from Minister Egan in Santiago conveying answer of Chilian Minister of Foreign Affairs to Mr. Blane's ultimatum of 21st.

Answer of the Chilian Minister of Foreign Affairs to the American note of the 12th.

Deploring the offensive language in Minister Matta's note of the 11th and the request to withdraw Mr. Egan.

The Presidential Message says—"The manner in which the Baltimore incident is referred to and the conciliatory and friendly tone of the remarks thereon, lead me to regard same as a hopeful symptom that may remove all causes of disagreement, but I am also of opinion that this serious matter cannot be settled satisfactorily by the Government without a special power from Congress.

"This turn in the march of events is most agreeable to me as I am sure it will also be to Congress and the Nation.

"The support that all have extended to the action of the Executive, to confirm the just demands of the Nation in this question affords us a useful and instructive example of the union and patriotism of our people".

The excitement is calming down.

London, 29th—At a meeting of the Board of the Bank of England it was decided not to alter the rate of discount.

Madrid 29th—State of siege has been proclaimed in Bilbao. Fresh disturbances are reported in other parts of the Kingdom. Castellar in a speech to-day stated that the situation of Spain was very serious.

Copenhagen, 29th—The record of last week shews a record of 620 cases of influenza of which 30 were fatal.

Dresden, 29th—The Queen of Saxony has caught influenza.

CHILE AND U. STATES.

The files of the *Times* and other London papers that came to hand yesterday throw some light on the quarrel between the Governments of the above countries, and explain the bitterness of feeling that prevails at New York and Washington on the subject. Although we have heard nothing in Buenos Ayres of the irritating conduct of the Chilian authorities there are telegrams day after day from Santiago to London of the annoyance given to Mr. Egan, perhaps with the view of compelling him to leave Chile.

A cordon of police and detectives was placed around the American Legation, and when Mr. Egan wrote to the Chilian Government to demand the withdrawal of these men no attention was paid to his letter. A few days later his son was arrested. Ultimately Mr. Egan called on the other Foreign Ministers to take note of the persecution to which he was subjected. Under these circumstances, and seeing that the British Minister, Mr. Kennedy, has come forward to protest against the ill-treatment to which Mr. Egan was subjected, we can easily understand that President Harrison is determined to make the U. States flag respected.

Possibly the Chilian Government may be willing enough to make amends, but unable to do so on account of the popular excitement. In that case the U. States Government will act with a strong hand.

JUDGE LYNCH.

Murder and robbery are becoming matters of daily occurrence and yet the authorities do nothing to check such a terrible state of affairs. We learn to-day of the cold-blooded assassination of a whole family named Tachmann, comprising 4 persons, in Santa Fe. A few days ago the *Prensa* mentioned several other murders in the same province, and added that the police were suspected of being concerned in these crimes. It will be remembered that last Monday some policemen at Merlo were arrested for the murder of a Brazilian, and they have since made a full confession. The Fiscal of Saladas, Corrientes, was shot dead a fortnight ago while robbing a farmer's house.

It may be doubted whether, in the worst days of California, things were as bad as this. Unless prompt steps be taken society will fall into chaos. The first thing to be done is to introduce capital punishment. The second to reform the rural police. Everybody looks back with regret to the better state of affairs that prevailed 40 years ago, when criminals taken red-handed were shot. There was then some protection for life and property.

Impunity for crime has brought about such results as might have been expected. The law is powerless, and assassins go at large from one province to another, murdering and robbing without let or hindrance. The slaughter of the Tachmann family is passed over with the same indifference as was the murder of Mrs. Catherine Burton last July. If these things had occurred in the time of Rosas the assassins would have been at once shot. Judge Lynch will certainly intervene if the authorities continue to look on unmoved at these atrocities.

THE BRESIL MAILS.

AFTER THE FEAST.

(From our own Correspondent.)

London, Jan. 4th

Everything is excruciatingly dull, but people filled with good things are very optimistic. The American market is rampagious, and Capel Court is making laudable efforts to finish the feast with "roast bear." Even distressed agriculture grins at the prospects of the new year and, like Cedula holders, persuades itself the worst is past. Mr. Yarrow, the torpedo-boat builder, tells an interviewer that he closes his works entirely for one whole week after Xmas; but after that moratorium Yarrow expects that every man will be in a fit state to do his duty. Before endorsing the prevailing optimism, I prefer to wait till Messrs. Yarrow's men return to work and we can see things as they are, neither distorted nor multiplied. The frost has returned, and dry air and clear skies influence the minds of men who have been walking in darkness during the last week of 1891. Retrospects still dribble on in the daily papers, but they contain nothing worthy of notice, except perhaps the remarks of the *Financial News* that financially the past year has been above all things "a South American year." I observe by the STANDARD that you are all off to "Plata del Mar," which I translate "Oof by the Sea," and we hope to hear nothing of you for three months.

Ethel Osborne has not been found, but she is supposed to be in London, the only country where she is safe from the law of extradition. She is said to have become a mother since the trial. Captain Osborne resigned his appointment in the Carabineers, but his brother officers have begged him to reconsider his decision. His wife is a god-daughter of Sir Henry James, who was convinced of her innocence and induced Sir Charles Russell to take the brief in her defence. Captain Osborne, who may be supposed to have known his wife best, was, of all her friends, the most uneasy, it is now said, as to the result of the proceedings. It is, however, denied that she made any confession to him. On the contrary, she is said to have braved it out to the last; but had all her trunks packed for a bolt when the £50 note business with her endorsement came up.

The explosion at Dublin Castle is still a mystery. A bit of a tin case which might have contained gun cotton or, as is now stated, nitro glycerine has been found, but beyond that there is not a trace as to the origin of the event. Mr. Michael Davitt writes a furious rejoinder to the *Times*, which in allusion to the supposed outrage reflected upon Mr. Davitt and his friend Patrick Ford. Mr. Davitt in reply reminds the "Literary assassin" that although its friend Pigott is dead there may be still "Red Jims" in the employ of Mr. John Walter who are quite capable of getting up an explosion in Dublin Castle to assist the Unionists in the Rossendale election. Both accusations are of course ridiculous, but it is strange that the explosion should have occurred at a time when the clerks in No. 15 were conveniently absent and when, otherwise, everyone was about and the police on the watch. The assumed Unionist explanation is that the clockwork was at fault and the engine exploded prematurely, but was intended to have blown up the Lord Lieutenant and Council, who would have sat in the Castle an hour or two later. As it happened, when the explosion occurred, the Lord Lieutenant was distributing alms at one of the Dublin workhouses.

As is usually the case, the women of England are in a high state of nervous excitement at the thought of the coming royal marriage. There is something quite romantic in the idea of His Royal Highness Prince Albert Victor, who is known to be a little deficient, wooing and winning the sweet Princess May behind the magnolias in the White House in Richmond Park, a sylvan retreat shut out from the prying world. The duchess of this and the countess of that are as busy as bees getting up a subscription—limited to £20—to present to the princess on her marriage a gorgeous present. You people who are not in the best set cannot conceive the interest which these trifles excite. Some of us, for the sake of diversion, try to talk about "Argentines" but bless you, you might as well talk about the new astronomy and binary stars. Fortunate for you if you are not collared by a duchess and made to write out a fresh list of subscribers and check her totals.

And so poor Emile de Laveleye is dead. He was not one of my gods, but the influenza fiend might have spared a less useful man. He was born in 1822, but looked much younger than his years. He was a sound Liberal and good economist; but, like many others, he dissipated his talents. He attacked all questions, in all countries, and with an air of profundity which was not real. The consequence is, he is quoted by all sides, but as an authority by none—or at least by none who know anything of the particular subject he discussed. Laveleye was one of those men who are always aspiring towards the most advanced ideas intellectually, but who by sentiment are fixed in the past. He was a well-known contributor to the *Pall-Mall Gazette*; he was a Socialist in some things, and individualist in others, and above all a bimettalist. He was a man of reading and information, but not original-minded.

You will have received the news that the famous French novelist, Guy de Maupassant, now staying at Cannes, has made a determined attempt at suicide. His friends seem to have known that for some time overwork had reduced him to a low nervous state of prostration, and, lest he should commit suicide, they had drawn the charges from the revolver in his room. He seems to have discharged the six barrels, of course without effect. He then tried to cut his throat with a razor, but evidently with a trembling hand and in an indecisive state of mind, as the wound inflicted was not serious. During the last ten years the unfortunate man is known to have dosed himself with morphine and other narcotics. A great deal that is whispered on this subject in literary circles cannot be published. Not long ago a report got into a French newspaper that M. de Maupassant was confined in a madhouse. The rumour was false, but if he saw it, it might have added to his excitement.

In home politics nothing is stirring beyond a rumor that the elections will take place in August. On the other hand the leading Conservative journals advise the Government to postpone the elections till 1893 and to throw over the Local Government Bill of Mr Balfour's. This would be more possible in view of the possible difficulties in the Unionist, caused by the nominal lead of the Duke of Devonshire which is not likely to be seconded by the absolute lead of Mr. Chamberlain, who has issued a manifesto to which virtually includes disestablishment of the Church of England in his program, although he is addressing Wales, and only alludes to disestablishment in that country. Neither the Duke of Devonshire nor Lord Salisbury would tolerate disestablishment in one or other country. Mr. Chamberlain's letter has resulted in his being attacked by the saintly "Spectator" as well as by the Conservative and Radical journals—each attack being directed from different and even conflicting points of view. The *Star* says Mr. Chamberlain's mind is not above that of a commercial traveller. He has no ideas of his own and for guidance was first indebted to Mr. Morley and afterwards to Sir Charles Dilke. These guides being lost to him he has since done nothing but blunder. The *Star* may be mistaken, Mr. Chamberlain may not be a first class man, but he is very clever. His fault is temper. He may turn and bite the Duke, as he bit Gladstone, and then comes the end of the Unionist party.

LATEST FROM MONTEVIDEO.

Jan. 29.

The Municipal Junta met yesterday. The Finance Minister and Baring's representative were present. The subject under discussion was the arrangement made in London by Dr. Ellauri for the reduction of the interest on the Municipal debt to four per cent per annum and the suspension of the sinking-fund for three years.

The July liquidation will be settled at the end of this month.

It was rumoured yesterday that in view of the critical state of the market the Chambers would extend the "feria" or Judges' vacation for another month. The rumour has no foundation.

Government has approved a project for fiscal intervention for the guaranteed railways.

The regattas announced for the 31st will not take place until the 7th prox.

There is nothing fresh from Flores Island. The passengers are all in good health.

PROVINCIAL NEWS.

Dr. Lencinas, a leading Radical luminary and President of a Radical club in Mendoza, has been arrested for two grave and potent reasons. In the first place he aided one of the assailants of Dr. Suarez's house to escape, and in the second place a formidable supply of firearms was discovered in his house. The Interventor, in the meantime, is trying to patch up matters. He called a meeting of the representatives of the contending parties, invited them to take a glass of wine and to kiss and make friends. The Interventor wants the contending parties to unite and put forward a candidate for the Governorship. The representatives of the contending parties were in a peaceful mood and did not go for each other or cut each other's throats, as they might have done under other circumstances. We are even told that they actually felt inclined to follow the Interventor's paternal advice and select a common candidate for the Governorship. It is one thing, of course, to accept the advice and another to follow it, and when the time comes to select a common candidate, it will be found uncommonly hard to conciliate conflicting opinions. In regard to Governor Ortiz it looks very much as if he will be allowed to fall, that is the impeachment will be pushed forward. We regret to note that a contemporary of ours, known as the *Reforma*, has been shut up in the most summary manner and a policeman placed at the door to prevent people from advertising and subscribers from paying up. We feel for our colleague, whose only crime appears to be that, in one of those moments of wild indignation so frequent in the stormy career of the provincial editor, he gave utterance to certain remarks, which no doubt bespoke the irrepressible outspokenness of the penman, but which were decidedly vehement and even libellous. The editor's lot in the Interior is not a happy one. When his forms are not "pied," he is reduced to eat humble pie, or he is killed by a rival, or maimed by an indignant subscriber. It all comes from being too outspoken.

The 28th will be a memorable day in La Plata, at least for the Saenz-Peñistas, who had it all their own way on that date. They filled the Argentino Theatre, the first time, we believe, the theatre was ever filled. They speechified and they proclaimed and declaimed to their hearts' content. Dr. Gabriel del Castaño made a good speech, Mr. Rufino Varela, who need no longer be considered a dangerous financier, since there are no gold reserves in the state-banks, spoke too. He did not dwell on the advantages of paper-money but on those of the candidature proclaimed. There were a good many ladies present, who filled and graced the boxes. We doubt if Moliere's crack comedy, with free entry, would have drawn so large a house. We are glad to say that there were no disturbances nor attempt at disorder. The utmost harmony prevailed and the whole affair passed off, as the French say "sur des roulettes" Dr. Roque Saenz Peña may now consider himself as a properly proclaimed candidate.

The Santa Fe police have managed to catch Carlos Astrada, one of the fellows who committed a murder recently near San Cristobal. His fellow murderer, Manuel Tejedor, is, however, still at large.

Advices from Rosario state that the financial committee of the Corporation have thrown out Mr. Sundblad's propositions in regard to the arrangement of the Municipal loans.

THE QUESTION WITH CHILE

(From the "New York Tribune".)

Chili is inhabited by the most patriotic, enterprising and ambitious race in South America. It is the only nation in that quarter of the world which has waged successful wars of conquest and enlarged its territories at the expense of its rivals. It is the most aggressive country in tropical America, and has the best fighting stock in its army and its navy. By its victories in the West Coast war and by the development of its commercial marine and mining and agricultural interests it has secured a position of prominence in the Southern Hemisphere. It is in the northern half of the continent alone that Chili has any rival to dispute its ascendancy in the American family of nations. For that reason a patriotic and vainglorious race dislikes the United States. Any one who has had personal acquaintance with Chilians in their own country knows that they are inordinately jealous of the United States. It is this feeling of jealousy which promotes sensitiveness and irritation whenever the two countries are brought into diplomatic relations. Chili, having no rivals whom she fears on the West Coast, and proudly asserting her ascendancy among the Southern republics, is always disposed to cherish resentments against the Northern Commonwealth.

This feeling was entertained by Balmaceda no less than by the Congressional leaders who are now in power. A year before the civil war which resulted disastrously for his Government he sent delegates to the Pan-American Congress who were markedly hostile to the proposed international policy, because they chose to assume that it embodied the leadership of the United States in a continental league of nations. Those delegates were unceasing in their efforts to thwart the aims of that diplomatic conference, and in many ways revealed the national jealousy of the United States. There had been no Itata episode; there had been no diplomatic controversies over rights of asylum; and there had beenno American cruisers on the West Coast of Chili; but hostility and jealousy existed and were plainly shown.

The United States is so pacific in its foreign relations and so well-disposed toward all the world that it is not easy for Americans to be convinced that there is a nation on this continent that dislikes them and would be well pleased if it ever had a chance of sending its best cruisers north to shell San Francisco. Nevertheless, that is the fact, and our people may as well recognize it. That the feeling of resentment is not returned it is almost needless to add. Americans have every reason for liking the Chilians for their fine qualities as a race and for their progressive tendencies as a nation. It ought to be one of the chief aims of American diplomacy to restore the friendliest possible relations with Chile; but in order to do this, a firm uncompromising stand must be taken whenever the honor of the United States is at stake, as it has been in the Itata affair and in the Valparaiso outrages. It would be the worst possible result, if through weakness and indulgence on the part of the United States, Chili should find cause for a vainglorious feeling that it had triumphed over its great rival. That would be sowing dishonor, and the reaping would come in a future West Coast war.

SOUTH AMERICAN NOTES.

London, Dec. 31st.

There was a rumour in the City on December 16 that the January coupon of the Argentine loan of 1886 would not be paid, which had the effect of depreciating for a time nearly all Argentine stocks and shares. The rumour was, of course, groundless. The money to meet the January coupon on this loan has been in London for several days, and there is no ground at all for the suggestion that default on these bonds is within measurable distance.

We hear that on December 18 the Cedula Bondholders' Committee received at their offices in Old Broad Street the delegatee of the Antwerp Defence Committee of Argentine Bondholders. At the conference which ensued the delegates announced that their committee had placed themselves in communication with the principal continental cities where Cedulas and other Argentine securities are held, and had taken measures to secure international co-operation in the defence of the rights of the holders. The two committees, after interchanging views on the situation, unanimously agreed that the Antwerp committee should use every endeavour to unite the Cedula holders in the various continental centres in support of the action of the London Cedula Bondholders' Committee.

Although the business of the well-known house of C. de Murrieta & Co. (Limited) has been purchased by the South American and Mexican Company, it is a mistake to suppose that we shall hear no more of the old name. At an early opportunity the shareholders will be called together for the purpose of passing a resolution altering the title of the company in such a way that it will include the name of Murrieta. The liabilities taken over amount to some £475,000, and the assets, which, in the opinion of experts, are of a comparatively liquid character, are expected to yield some £517,000.

Amongst those who have been giving the question of the liquidation of Messrs Baring Brothers some consideration is Mr. Charles Pond, of the Mexican Association, and he has addressed a letter to the Governor of the Bank of England giving a general outline of a scheme for dealing with the future realisation of the assets. Liquidation, he points out, has been conducted to a point at which all outside liabilities have been provided for, and the Bank of England is, for the time being, out of £7,000,000, for the payment of which, with interest at the rate of 4 per cent per annum, certain assets remain in hand. By way of collateral security, the Bank holds a guaranty amounting to £17,250,000, which, however, will not mature for payment until November, 1893. The continuance of this state of affairs being obviously objectionable to all parties, he advocates that the original guaranty be reduced to one-half, namely £8,625,000, upon the security of which, in conjunction with the remaining assets, 3 per cent bonds shall be created for a term of five years, and that of these bonds £7,000,000 shall be issued forthwith to repay the Bank, and that the balance be issued as and when shall be necessary, in order to provide for interest and other outgoings, in so far as the continued realisation of assets shall not suffice for that purpose. He has ascertained that these 3 per cent bonds would be readily subscribed by banks, assurance companies, etc., and would become a popular form of investment. To facilitate the future realisation of assets, he thinks that a board of management should be formed to work in conjunction with the Bank of England, and adds that realisation would be materially assisted by the increased confidence which would result from this rearrangement.

The Comte and Comtesse d'Eu have returned to Versailles, where they will stay for some time. They will not visit the Riviera this winter, as the associations are too sad. They do not intend to assume the Imperial title in any way, desiring not to complicate their position in France.

The question of the amalgamation of the Buenos Ayres and Rosario and the Central Argentine Railway Companies has been revived by Mr. R. P. Houston, who sends a letter to the *Times* on the subject. He points out that since negotiations were opened some three years ago affairs in the Argentine Republic have undergone a great change, and the two companies have been brought into direct opposition between Rosario and Buenos Ayres. The position and prospects of both companies have suffered in consequence, the dividends on their ordinary stocks have fallen from 9 and 12 per cent per annum to nothing, and the values of the stocks have, of course, considerably depreciated. "From a shareholder's point of view, there can be no doubt," says Mr. Houston, "that each company has everything to gain and nothing to lose by amalgamating on equitable terms, the only objections I can see being of a personal nature, which, doubtless, could be arranged if the main question were settled, and I beg to suggest that the largest shareholders in each company should bring pressure to bear upon the respective boards to re open negotiations for a fusion of interests."

We have since heard that there is a fair prospect for an arrangement for amalgamation being seriously entertained by the respective boards. Mr. Houston's estimate of a saving of at least £100,000, or more than 1 per cent upon the combined ordinary capital, is endorsed by competent railway authorities, and it is understood that a committee of shareholders in both companies is about to be formed to assist the carrying through of this measure.—*European Mail*.

THE LA PLATA PORT.

To the Editor of the *South American Journal*.

Sir,

The suggestion made by Messrs Mee, Milling and Co. to form some sort of company in order to work and make the most of the La Plata port is certainly a good one, but great care should be exercised to adapt the means to the end in view. There is no justification for any heavy outlay; the measure for the expenditure is the shipping—the present and that of the near future. The following extract from a letter lately received from two of the oldest captains trading to those parts, and now using the La Plata port, deals with the question. It says: "Ensenada (La Plata) is an excellent port, having plenty of water and being easy of access. At present the only ships frequenting it are the Royal Mail steamers (two per month), the three large Messagerie steamers, and about six of the larger Italian mail-boats—say twenty to twenty-five thousand tons monthly. The only chance of this amount increasing will be if the channel to the Madero docks fills up, which I should hardly think the Government would ever allow".

The amount of shipping the La Plata docks will get depends, therefore, on the depth of the channel connecting the Madero docks with the Buenos Ayres outer roads—some ten miles distant, and having as much water as there is in the La Plata Port. It has nothing whatever to do with the fact that the La Plata dock is a good modern type port, whereas the Madero docks are old-fashioned in character, of very defective design, and altogether behind the times. Whether the depth of this channel can be maintained is a question no human being, not even the STANDARD of Buenos Ayres, can determine. Experience alone will solve it. The making of a large dock at La Plata, costing millions, before that question was solved, was, consequently, an act of incredible folly on the part of the Government. But it is, of course, right to make the most of a bad job; and, provided an intelligent plan be followed, there is no reason why a moderate outlay should not be incurred for that object. The body of the dock, the great tidal basin, is finished. It is large enough to work three million tons of shipping per annum, and £300,000 would furnish the whole of the shore works necessary for that purpose. But, as the present shipping is only about one-tenth of that amount, it would surely be the height of imprudence to spend so large a sum. An outlay of £50,000 to £60,000 should amply provide for present requirements, and something more. Even a much smaller sum could be made to do all that is strictly necessary fairly well. The chief consideration is to work out an intelligent traffic-working plan first, and adapt the arrangements to that plan. It is surprising that the Ensenada Railway, which would be so greatly benefited, maintains such an apathetic attitude in this, for it, so important question. And what is still more surprising is that some influential house does not take in hand the immeasurably more important question of the Rosario, Entre Rios and Montevidean ports—the La Plata port the country could have dispensed with It is not even a necessary evil—for evil it is, since it enhances the cost of transport. But the absence of suitable ports at Rosario, Entre Rios and Montevideo is a national calamity. They are indispensable for the development of the country.

Rosario's port is in the same deplorable state as when I saw it in the beginning of last year, utterly unable to cope with the traffic. What will be the state of confusion and the loss next spring when, as we are told, much larger quantities of produce will have to be dealt with? Yet a trifling outlay would have met the case.

Entre Rios, worse still, is actually as yet without its ocean-shipping ports, incredible though it may seem. However, there the explanation is to be found in the lax native management; no such excuse can be pleaded at Rosario.

Montevideo is also without a port worthy the name—a terrible drawback

Yours faithfully,

O. P.

"Under the Equator, gentlemen," remarked an extensive traveller, "it is so hot that the natives have to put the hens in ice chests to prevent them laying hard-boiled eggs."

THE GREAT TOWER OF CHICAGO.

The *Philadelphia Lodger* has published a descriptive sketch of the tower which is to be one of the features of the World's Fair at Chicago in 1893. The builder is to be Andrew Carnegie, of Pittsburgh. Over twenty-five thousand people will be accommodated in the tower at one time, and two of the many elevators are to start from the ground and run more than 1,000 feet up without change or stop, directly to the look-out landing. The width of the tower at the foundation level is 440 feet in each direction. It is intended that throughout the exhibition the Stars and Stripes shall wave from the top of the tower—at a height of 1,120 feet above the ground, higher than ever flag has waved before. After a long and careful study the designs have been completed by Engineer George S. Morrison, of Chicago. He estimates that the earning capacity will be nearly four times that of the Eiffel Tower. The actual cost will be about £300,000. The cost of the Eiffel Tower was a little less than £340,000. The difference is in the greater simplicity of design of the American tower. The three landings will be circular platforms, the first two hundred and fifty feet in diameter and 200 feet from the ground. The second will be 150 feet in diameter and 400 feet from the ground, and the upper landing—more properly called the "lantern"—will be 60 feet in diameter and 1,000 feet above the ground. At the first landing there will be a grand colonnade around the outside, 15 feet wide, and 738 feet mean circumference. In this colonnade four or five thousand people can be accommodated at one time. Inside of this colonnade will be space, in addition to that required for elevators and machinery, sufficient to build four hotels or restaurants. In addition to the restaurants there will be provided numerous kiosks or booths, constructed in accordance with the architecture, styles, and customs of various countries, which will be used for the sale of curios, ornaments, fabrics, and other articles produced and manufactured in all lands. Within the restaurants 6,000 to 8,000 guests may be comfortably seated and served at one time. Within and about the booths and surrounding platforms 3,000 more people will have room to move about. The second landing is designed as a grand promenade and picnic quarters in the daytime and as a dancing hall in the evening. It will at one time accommodate 5,000 to 6,000. The upper landing is to be finished as the grand lookout, will be two or three stories high and accommodate at one time 1200 to 1500. Above this will be four offices for signal service and scientific investigation. Above this will be the circular electric railway, carrying electric lights at night and signals by day. Above this is the lighthouse, to be provided with the most powerful revolving light ever constructed, surmounted by the flagstaff and the Stars and Stripes.

TEMPERATURE.

Mr. Editor,

The communication which was inserted in my name in your issue of yesterday, anent "Registration of Temperature," I beg to disown.

With the scissors of Atropos you severed me from my offspring, disemboweled it of half its material, scattered to the winds all its points, and rendered the whole what Carlyle called a "botch," an incoherent, shapeless mass of which I am heartily ashamed.

I am, Sir,
Yours truly
J. W. White.

Jan. 28th, 1892.

Ed. Note. We were unwillingly compelled to omit from the commnnication in question several mathematical formulas that would not fit in our columns.

RAILWAY ITEMS.

Mr. Dominico, Inspector-General, has issued a report on an application of the Central Argentine Railway for the appointment of a committee to inquire into the damage occasioned by the recent inundations. The Inspector-General says that this is a case for the N. R Board.

The Treasury Procurator has approved the amended statistics of the Mar del Plats Tramway Co.

We regret to announce the death on Christmas Day, at the comparatively early age of 56, of Mr. William Henry Punchard, of the firm of Punchard, McTaggart, Lowther and Co., of London. The deceased was a very eminent and successful railway contractor—the greatest, perhaps, since Mr Brassey's time—and he took part in the execution of most important railway and other undertakings in various parts of the world. Among them we may mention the Buenos Ayres National Tramways, the North-Western of Uruguay, and the Buenos Ayres and Campana Railway. More recently, Mr. Punchard and his present partners constructed and successfully completed the Grand National Tramways of Buenos Ayres.

EDITOR'S TABLE.

Nice, cool weather, politics "all over the shop," and two more "casos sospechosos" of Y. J. were the main features of yesterday. The thermometer took such a downward plunge on Thursday night that blankets had to be taken from their summer quarters for active service. The political pow-wow on Thursday evening at La Plata filled the papers yesterday and made them terribly toilsome reading. The yellow fever cases are two of the crew of the French mail steamer Bresil Some of the doctors say that "embarrassed gastric fever" (What a name!) is the disease, not the yellow article. The news from Rio is to the effect that forty people die daily there of yellow fever.

Old Lujan will commence a three days' jollification in the Romeria line to-morrow. The Western Railway issues tickets at reduced fares.

At the Anglican Chapel in Belgrano to-morrow the usual 9 o'clock celebration will be supplemented by matins and a sermon by the Rev. Samuel Fraser Handcock. Evensong and sermon by the Rev. Pelham Ogle will be at 5 o'clock as usual.

Viscount Faria, father-in-law of our esteemed friend Mr. Thomas Armstrong, has arrived in the Bresil. He comes as Portuguese Consul General.

Viva! Messrs. Cardoso and Co. have invented an apparatus that will knock the Inspector difficulty in the tram cars on the head. They ask $40,000 for it, and the Companies are said to be considering the sporting offer

A Beer and Music Pavilion in Plaza Mayo is one of the "novedades" on the tapis. We note a growing taste for B. and M.: two good things in their way.

Our readers will have perused with interest the letters published in our columns from time to time on Mendoza by Mr. F. W. N. Lodia. His accounts of life in the Andine provinces were remarkable for keen observation, impartiality of tone and a graphic power of description. As will be seen by his advertisement in another column he returns shortly to England, and will be glad to undertake any commission that may be confided to him. We may add that Mr. Lodia is an Englishman, who has resided here some years, speaks Spanish admirably and knows the trade, habits and requirements of the country. We hope to see him back again.

Who wants to go to New York, travelling like a prince? Those in such mood can safely apply to the Pacific Steam Navigation Company's agents, who are now issuing through passages to the Empire City, in combination with the Cunard line from Liverpool.

Peuser's invaluable Pocket Guide for February was sent round yesterday. As usual, it is getting fatter with additional information.

There is an unpleasant rumour in the air to the affect that our M. V. neighbours are thinking of another "feria" or general, all-round moratorium, to cure the crisis, as Sister Anne is still looking in vain for the coming of any remedy from Modern Babylon. This tearful report, is, however, stoutly denied by those who profess to know all about it, and a lot more on other subjects.

The following will represent Quilmes in the match Quilmes *versus* Hurlingham to-morrow:—F. W. Atkinson, F J Burrow, F Bocquet, F. W. Fothergill, H H James, P Norman, C Parry, A Palmer, T B Sinclair (Captain), C R Thursby. Train leaves Central Station for Hurlingham at 10 a.m.

Our Banda Oriental neighbours appear to have bucolic as well as financial trouble on their hands. The maize crop is reported as all but lost owing to the prolonged drought: and sheep and cattle are in a bad way from the same cause, especially in the north, where the old error of overstocking the camps is still rampant.

Another bit of promising news from the other side of the mighty Plate is that the Government of the Uruguayan Republic is about to imitate this country and start Fiscal Intervention in the affairs of all guaranteed railways. European shareholders in these concerns will pull wry faces when this news reaches them.

A writer in a London weekly pays the following tribute to the Irish soldier: "I saw the other day an assertion that twenty-five years ago there were 50,000 Irishmen in the English army, while now there are hardly 28,000. Probably the ease with which they can better themselves by emigration to America has more to do with their withdrawal from the army than any feeling against England. In the stormiest times of Irish history the flower of the British army has ever been composed of Irishmen—not always the most pinklike and spickest-and-spannest of soldiers, but full of a pugnacity and a dash that always made them terrible on the battle-field. Of course all Irish private soldiers are not so accomplished as the immortal Terence Mulvaney, nor all Irish regiments as sanguinary as the Tyrone when "they have seen their dead;" but the English army deprived of them, as it seems in a fair way to be before long, will become a curious concern. The London cockney and the chawbacons from the rural counties have neither the intelligence and the physical stamina nor the "grit" of the Irishmen."

We made a mistake yesterday in saying that the Rowing Club was about to throw up its Boat-house at the Tigre: this last word was a "lapsus calami" for Riachuelo. Mr. H. D'Arcy Shepherd has favoured us with a note on the subject, in which he says:—"The most adequate place to move the Riachuelo building to would be the present outer wall of the Madero port at the bottom of Calle Alsina, which would also allow the boats to be launched inside in case of rough weather. This would be accessible to all by a five minutes walk from Plaza Victoria, and form a valuable and much sought branch of the club. Moreover, the 'Teutonia' are anxious to obtain the right of possession of the Riachuelo site, which could be disposed of to them to advantage. Statistics prove that last year 413 members went out 1028 times in the Tigre and 123 members made use of the boats 440 times in the Riachuelo. The total number of boats taken out in the Tigre was 1653 against 516 registered in the Riachuelo; therefore it will be recognized that should the Barracas branch be suppressed, some substitute must be found for a place where ⅓ of the yearly movement of boats takes place."

The *European Mail* says that the deaths of the Dukes of Bedford, Cleveland, Somerset, and Devonshire within 12 months will swell Mr. Goschen's receipts. The demise of four English Dukes, out of a total of 20, in a single year is probably unprecedented in the history of the peerage.

A very general wish was expressed by the families residing at the Tigre, that the Venetian aquatic fête to-night should be postponed in consequence of the awful tragedy in Mr Bullrich's house; but the Fête Committee refused to accede to it. The families can easily give the Committee a Rowland for an Oliver by not attending the tomfoolery.

The old, familiar posters of the Cleary troupe are again to be seen in the vestibule of the National Theatre. The English charitable institutions may count on profiting by this on-the-way-home visit of the company.

We remind our readers in the near Western camps of the mission which the Passionist Fathers will open in the parish church of Lobos to-morrow, at the conclusion of the 11 o'clock Mass.

Admiral Walker is looking out for some staunch sailing vessels, to carry coal for his squadron in case it be ordered from Montevideo to Valparaiso. This looks uncommonly like business.

Dr. Azevedo, Brazilian Plenipo. here, will go to Chile in the same capacity when his successor, Dr. Assiz Brazil, arrives.

There is a letter detained in the Post Office, addressed to Mrs. Young, Telse Werkhirise (query Workhouse), Whimbourne, Dorset, England. Why it has been stopped the P.M.G. does not say.

A Zarate estanciero complains that he paid the local Locust Committee 153 shinplasters some time ago to help him to get rid of the insects; but they have ignored his existence ever since, and he and his men have to fight the destructive invaders as best they can. The Locusts have helped to circulate a lot of money this season.

The "Anales del Museo Historico" is to be printed by Kraft. This ensures its being well turned out.

The following well-known gentlemen form the new Committee of the Buenos Ayres Rowing Club:—President, Eduardo B Madero; vocales, R W Anderson, Alejandro Virasoro Calvo, Amancio Williams, Rufino de Elizalde, Dr. Sergio Garcia Uriburu, Eduardo Merian, Carlos Alcobendas, Carlos Maschwitz and Carlos A Sackmann.

There was a suspicious absence of the usnal daily telegrams from Chile's capital yesterday. Something disagreeable up, perhaps, in connection with the "little bill" presented by Jonathan.

Another awful crime in the Santa Fé colonies. At Santa Elena a family of four persons, named Tachmann, have been butchered in cold blood. Two bad characters have been arrested on suspicion. These wholesale massacres of peaceful and industrious people are becoming so frequent in the wheat colonies that a Vigilance Committee on the stern Californian model is evidently the only remedy. The police are not worth a dam.

We have a paper from a subscriber in Penang; another from Frank Brown, from the Cape, and a beautiful 'Tableau Synoptique' of the rise and fall in the price of wool in the Antwerp market during the past four years. All deserving subscribers can have a look at these precious papers, if so inclined.

On Thursday night at La Plata some larky "jovenes conocidos" applied a match to the fireworks in the Plaza while the pyrotechnist's back was turned, preparing for the display. The result was a premature banging and fizzing and general flare-up an hour before the appointed time. All the youngsters were "run in," and their papas had all they could do to get them out. Boys will be boys. Another young rascal was caught the other day in a much more serious act—stealing chairs from the church, to sell them and supply himself with the pocket-money which his impecunious papa was unable to give him. Promising youth.

The Zoos have more trouble on their humane hands. Doctoral Cordoba has taken to bull fighting. Dr. Albarracin has called the attention of the Minister of the Interior to the matter.

Letters from Tucuman say that the sugar cane has grown to unusual dimensions this year, owing to favourable weather.

Governor Lista of Santa Cruz is in town. He has just returned from an expedition to the Andes, and intends to start on another next month. He is an indefatigable explorer.

This is positively the last week of our sale of incomplete lines of singlets, pants, socks, dustcoats, jackets, etc. etc. We have done a big business during the past week, and everybody has been more than satisfied.

We take it that our past reputation as the foremost English outfitting house in Buenos Aires is sufficient to convince the public that the prices given below are genuine reductions. Full sized gents' umbrellas will cost elsewhere $10, our price $4.50. White shirts, striped pique fronts, worth $6, our sale price $3.50 over 300 sold last week; strong braces, solid leather ends, usually sold at $2 50, now selling at 95 cents. Gentlemen's office coats from $4.90. Long Mohair dust coats $15.90, worth $25. Waistcoats from $3.70.

It is folly to pay ridiculously high prices when we can give you better goods and better value. Don't miss the place "THE ENGLISH", 596 Cangallo, shortly moving next door. It will pay you to walk a few squares. Remember this is the last week. Your neighbour will thank you for telling him of it.

PEACHES
TIGRE PACKING COMPANY.
These well-known preserved peaches form the best dessert in the present season and purchasers must be careful to observe our mark and name as fruit of an inferior quality and defective canning is now being offered for sale with labels marked Tigre Peaches.
To obtain the genuine article ask for the "Tigre Peaches" and see that the label bears a Tiger painted in colours and our name

SAVING IN GAS

The object of this Company is to supply to consumers of gas an apparatus called "Economizadora de Gas," patented by Decree No. 852, of 20th February 1890.

The "Economizadora" is complete in its effects, is non-explosive and does not emit offensive smells.

Consumers who use the "Economizadora" have nothing whatever to pay for putting it up or removing it.

Once fitted up, the consumers have only to pay from 20 to 50 per cent on the saving effected.

Escritorio y Direccion de la Empresa: Calle San Jose Num. 574.

PACIFIC STEAM NAVIGATION COMPANY.

Fortnightly Line of Steamers.

The Steamers of this Company will sail in the following order:—

For Europe from Montevideo

LIGURIA, Capt. Hamilton, sails on Feb. 11th for Rio de Janeiro, Bahia Pernambuco, Lisbon, Bordeaux, Plymouth and Liverpool.

BRITANNIA, Capt. Brown, sails on Feb. 25 for Rio Janeiro, Lisbon, Vigo, Bordeaux, Plymouth and Liverpool.

For the Pacific from Montevideo

ACONCAGUA, Capt. Waddilove, sails on Feb. 1st for Puntas Arenas, Coronel, Talcahuano, and Valparaiso.

SORATA, Capt. Adey, sails on 17th Feb. for Punta Arenas, Coronel, Talcahuano and Valparaiso.

Table wine is granted to all classes of Passengers.

Steamers for Europe will touch at Plymouth to land Passengers only.

Passengers must secure their tickets before 3 p.m. previous to the day of sailing.

Passengers booked through to New York, U.S.A., in connection with the magnificent steamers of the Cunard Line, sailing from Liverpool.

Steamers for the West Coast of South America are in connection with others of the same Company which trade up the Pacific Coast as far as Panama, and take Mails, Passengers, Parcels, Specie and cargo for Punta Arenas, Valparaiso and West Coast ports.

The steamers are illuminated with electric light, are fitted with all recent improvements for the accommodation of Passengers and carry a French Chef de cuisine.

In the event of detention at Montevideo, through bad weather etc., the Company will pay the ordinary Hotel expenses of passengers of all classes during such detention.

Messrs. Moore & Tudor, Maipu 163, B. Aires.

Chascomus, March 23rd 1891.

Dear Sirs—

"I have tried HAYWARD'S "PASTE" DIP on my Sheep, and have pleasure in bearing testimony to ITS EFFICACY AS A DIP. I need have no hesitation in recommending it generally as a Cure for Scab, without discolouring or damaging the Wool.

The "PASTE" is in my opinion preferable to the Powder, and will probably have a larger sale than the latter."

Yours very truly

(Signed)

JOHN KELLIE.

It has been proved by many important Estancieros that HAYWARD'S PASTE is more convenient to use than any other Dip, being already mixed and dissolving in any kind of water. It makes a smooth soapy bath which adheres well to the Fleece and leaves the wool clean and soft.

ON 'CHANGE.

Friday, Jan. 29.

The gold market ruled very hard all morning, in spite of the general belief at an early hour that the bulls would be obliged to walk into the ring to sell heavy amounts of gold. This much-talked-of over-speculation of the bulls, viewed in the light of the quotations on the black-board, appears to be all moonshine. Whoever watches the current of the speculation must come to the conclusion that gold is remarkably steady, and far more inclined to rise than to fall: that is to say, that it requires a far heavier speculation to produce a fall than to produce a rise. Spite of all this, quite a number of dealers are operating for a fall, and the majority of outsiders shew bearish tendencies, yet the liquidation is near. To-morrow ought to show the true current of the speculation.

Twenty thousand ounces changed hands at the first ring; the price opened at $61.60, rose to 61.90, and closed hard at 61.80. Sovereigns closed at 19.15. The demand for gold on time, at one dollar contango up to end of next month, put up prices to-day. This demand for gold on time has become suddenly general, owing to some reported hitch in local politics.

La Plata Cedulas ruled awfully weak. A few thousand National Cedulas A changed hands at 85. A small lot of shares of the Banco de Italia y Rio de la Plata appeared on the black-board at 60 gold. The meeting of shareholders of the Italian Bank will take place on the 8th prox.

Exchange remains quiet. The next fast steamer to Europe will be the Lamport and Holt steamer Coleridge, which will leave on Sunday; she ought to take a fair amount of exchange. Discounts continue difficult.

The following is a summary of the business effected in stocks and shares at the first ring to-day:—

South American Ounces—
For cash.... 20,121 at 61.60-70-60-70-80-90-80

Sovereigns—
For cash.... £500 at 19.15

Patriotic Bonds—
For cash.. 35,600 at 56.80-60-50

Banco de Italia y Rio de la Plata—
For cash..... 100 at 60, gold.

National Hypothecary Cedulas—
For cash..A paper 1,000 at 85

Provincial Cedulas—
For cash..G 20,500 at 27.50-20
For cash..E 1,000 at 29
For cash ..F 1,000 at 27.20
For cash..L 1,200 at 29
For cash..M 2,600 at 28.20
For cash..N 32,000 at 28.20
For cash..O 60,000 at 28.20

The Zephyrus, of the Houlder Bros' line, arrived to-day at La Plata from Newport; she brings 1700 tons of cargo for La Plata.

We may call attention to the remarkable fall in dry hides: the article which was worth $8 to $9 is now quoted at $7, and lower if heavy lots must be sold off. The sale of hides to-day is difficult, and it is understood that the new American tariff is the cause of the fall. From the beginning of this year dry hides must pay import duty in the United States, and it is a pity that the Argentine Foreign Office did not take timely steps to prevent this burden on the Argentine staple. Now it is too late. If we are not mistaken, Minister Pitkin informed the Argentine Government of the change of tariff many months ago; but nothing has been done to prevent the blow, and the fall in hides and stagnation in the market are the results of this deplorable indifference.

By advices from the rural districts, especially from farmers who have been actively engaged in threshing, it appears that the wheat yield in the North, South and West of the province of Buenos Ayres is very unsatisfactory. There is much stalk, a great deal of straw and little grain. This unsatisfactory yield necessarily reduces to a considerable extent the glowing calculations of this season's crop. The heavy arrivals in the Central Produce Market, in the Once, in the South Plaza and in the Retiro have produced a fall in wheat prices. A maximum is now reached at 13$ for extra fine qualities. The stock of wheat in the market, however, is small: arrivals are immediately bought up for consumption. Exporters here operate on a very small scale; up rivers export of grain is very active.

Many exporters have made a mistake by making contracts with shippers for the shipment of grain in February and March at high rates: some of these contracts are running in the present month at rates much above current freights. The shrewer ones expected a heavy rise in freights, and they are mistaken, up to the present at least. Shipbrokers, however, are confident that the actual weakness of freights must soon disappear, as little outward cargo is offering and the tonnage in the river is not excessive. Great quantities of produce must yet be shipped: the export season has been dragging on very slowly. This season in wool alone at least three hundred thousand bales remain to be shipped; great activity may be expected in February and March, and a better feeling in freights must follow.

The advices from London about the state of the wool market and the progress of the Colonial wool sales have produced a most unfavorable impression in our local wool markets—a kind of "marasmo" frame of mind has ensued. We may say that the season is a fatal one to those who did not seize the favorable opportunity of selling in November and December. Exports up to date are calculated by the best authorities in the market at 100,000 bales of wool; they calculate also that from 250,000 to 300,000 bales must yet be shipped. This slow export of the chief produce of the country is all the more significant, in view of the very high premium on gold, in the neighborhood of 300%. All thought that at such a premium wool would move off fast, but the fall in the European price-level has counteracted the rise here in the paper price.

The "acopiadores" or so-called rural speculators who scour the camps every year and buy up wool on contract at big and small estancias, lose very heavily this season in view of the great fall in the price of the article. Wool brokers maintain that the majority of these speculators lose up to the present on an average two to three dollars per 10 kilos—an enormous loss indeed. They speculated on a normal state of affairs in the European wool market and on a considerable rise in the gold premium here. In both expectations they have been disappointed, for we see wool going down to the prices of 1885 and 1886 and the gold premium steady, but much under the panic rate of October, when gold touched 460.

The cheques of the Provincial Bank closed to-day at 42 to 40½% discount; those of the National Bank at 27% discount and of the English Bank at 28% discount. Bonos of the La Plata Mortgage Bank were done as low as 10½ to-day.

A slight improvement was reported in exchange this afternoon; rates were

firmer, but little business was reported. The gold market ruled very steady at the second ring; a host of buyers sprang up for time bargains, and this hardened rates. Ten thousand ounces were sold for to-morrow: the market opened at 61.90$, rose to 62, and closed hard at 61.90. Sovereigns closed at 19.20$. The closing rates show a premium of 280½% on ounces and 281% on sovereigns. La Plata Cedulas were a shade firmer.

The following is a summary of the business effected in stocks and shares to-day at the second ring:—

South American Ounces—
Jan. 30th 10,528 at 61.90-62-61.90
Sovereigns—
Jan. 30th.. £700 at 19.20.
Patriotic Bonds—
Jan. 30..... 98,000 at 56.20-56.
Feb. 29.... 20,000 at 57.
Nuevo Banco Italiano—
Jan. 30 .... 100 at 36.
National Hypothecary Cedulas—
Jan. 30 ..A 4550 at 27 gold.
Jan 30 ..C 7,200 at 69 67.
Provincial Hypothecary Cedulas—
Jan. 30 ..L 18,800 at 28.50-80.
Jan. 30 ..M 1,600 at 28.30.
Jan. 30 ..N 50,000 at 28.30-40.
Jan. 30 ..O 65,000 at 28.30-40.

In our last issue we published a statement by the City Improvement Works Board shewing that the cost of the water supply comes to the truly fabulous figure of nine cents gold per cubic metre. If the Board will take the trouble of taking up Mr. Bateman's report and looking up page 29 they will find the following statement:—"The annual expense of raising 8 million gallons of water per day for the supply of the city and of filtration will be about £11,000." In other words, one penny per thousand gallons. Eight million gallons are equivalent to 36,344 cubic metres, and calculating the cost at 9 cents gold per cubic metre, as the Board make out, the cost would be £235,000, say twenty pence per 1,000 gallons! The Water Companies of England sell water in large quantities at six pence and even at four pence per 1000 gallons, and make a profit at that price. These are very startling figures, and we beg to call the attention of the Board to them. We may here state that the Government a short time ago approved the estimate of the expenditure involved in the management and technical direction of the City Improvement Works. That expenditure amounts to $62,000 per month, say at the present rate £3,500 per month.

The Pacific Steam Navigation Co.'s s. s. Magellan entered dock to-day after completing 10 days' quarantine on account of call at Rio. She will be placed on the berth for Liverpool direct, and is expected to sail on the 12th proximo. The Patagonia of the same company sailed to-day (29th) with a full cargo for Dunkirk and Liverpool.

Mr. J. Greenchields, from the Falkland Islands, and Mr W. Hope, from Santa Cruz, were welcomed on 'Change. Mr. Hope reports great progress in Santa Cruz and a splendid increase in sheep. The settlers complain greatly of the inactivity of the Governor. Several petitions which were handed to him 9 months ago have not yet been laid before the Government, which has forced some of the settlers to come up and present their own petitions—a waste of time and money.

We have to thank Messrs. Childs, Saunders & Co. for a copy of Messrs. John Birch & Co.'s very interesting circular letter to their agents and friends abroad. The letter is much too long for publication in these columns in extenso, but the following extracts cannot fail to interest our readers:—

"To go straight to the roots of the evil, these may be found chiefly in the highly-protective tariffs, which have been so much in vogue of recent years, and the rank growths they have induced; these for the time being have overstimulated enterprise and production, and caused a feeling of over-confidence, which let loose for investment the vast accumulation of hoarded capital, which had been during the previous years of depression waiting for opportunity; speculation consequently ran riot in every direction, companies of every possible and impossible description were formed with the greatest freedom, and to no part of the world was money so freely and injudiciously advanced as to the States of South America; of which circumstances have since shown the folly, and from this quarter inflation received its first mortal wound.

"Concurrently with the financial crash which took place in Argentina, one of those outbursts of revolutionary feeling which seem to be sporadic in South America commenced to run its course, and has since affected almost the entire Southern half of the Continent. The shock to public confidence in Europe was severe, and the pockets of the public closed like the shells of an oyster instantly; this was a hard blow to financiers, and found them quite unprepared; in every direction they had been bringing out Companies and floating loans of a more or less unsafe character; they were in the position of being loaded up with masses of stock which they had underwritten, and which the public would not take off their hands. Since then a gradual course of liquidation has been going on, which is even yet by no means over.

"Public confidence shaken is not easily recovered; but had other parts of the world not shared in the same depression as South America, and had harvests been good in Europe, the position might not have been so acute as it has since become. Misfortunes of all sorts and kinds have come fast, however; there has been failure of the harvest in Russia, and its partial failure in Austria, Germany, and France; the prohibition in Russia of the export of cereals has dealt a blow to the movements of traffic over the German railroads; the development of Africa has been found a much slower process than expected; the great Colonies such as India and Australia—have had their own internal difficulties, arising from famine and labour troubles, and also from financial inflation; while further east, Japan has been visited by earthquakes, and China by the first convulsions foreshadowing attempts at revolution. Even in the comparatively small but relatively rich and promising States of the Malay Peninsula and Archipelago progress has been stooped, and poverty prevails instead of promise.

"Only in one quarter has the position been different, viz., in the United States, where a phenomenal harvest has come at a time when famine prices prevail in Europe; but even the United States, under the operation of the Mc.Kinley tariff, want gold, and not goods, in return for their food exports, and Europe has to buy its food relief very dearly.

"It is an old and true saying, though relief is often long in coming, "This truth of yore was Sorrow's friend; Times at the worst will surely mend." The process of liquidation and the continued weeding out of the weaker elements in the long run re-establishes confidence, and promotes those enterprises the success of which eventually leads to others less sound, and so on till inflation is reached; for in this vicious circle of action and reaction the trade and commerce of the world seem likely to run until those halcyon days when the true relation between labour and capital, demand and supply, will be established.

"The Nemesis of Political Economy has however come at last, and its effect may be seen in the marked falling away in German exports, and in the greatly-depressed shares of manufacturing Companies and of the financial houses with which they are so closely associated; so that at the present time a crisis, industrial and commercial, as well as purely financial, is reigning with far greater acuteness than elsewhere."

We take the following from the mails to hand:

"In accordance with the directions of Mr. Justice North, a meeting of the contributories of the Buenos Ayres Waterworks Company was held on Tuesday at Winchester House. Mr. H. R. Grenfell presided, and moved:—"That in regard to the scheme as embodied in the point submitted by the liquidators, the scrip holders resolve that each holder of scrip for debentures of the Company shall accept bonds of the Argentine Republic receivable by the Company under the agreement dated May 5, 1891, equal in nominal amount to the nominal amount of the debentures of the Company represented by such scrip with coupons for interest on the said bonds from the 1st day of July 1891, in exchange for, and in full satisfaction of, all claims on the assets of the Company in respect of such scrip." Mr. G. W. Drabble seconded. Mr. Robson contended that the resolutions passed at the previous meeting of the Company were not valid. They had been lured and misled from step to step, and they were now invited to throw away the security they got from the guarantors of Messrs. Baring, and take the waste paper of the bankrupt Government of a country which was on the verge of another revolution. After some further discussion the resolution was put, when 65 voted for, and 14 against. The resolution was declared carried. A gentleman present handed to the chairman, on behalf of a Shareholder, a written protest against the proceedings. The meeting then terminated."

The returns of the Custom House to-day amounted to

Imports	$188,895.24
Exports	92,475.48
	$281,370.72

	Gold.	$ m/n.

TO DRINKERS OF GENUINE SCOTCH WHISKY.

It is a fact that the best Scotch Whisky has now arrived in this country, and the following lines from BON GAULTIER'S BALLADS, viz: "THE MASSACRE OF THE MACPHERSON" (from the Gaelic) will prove that the "GLENLIVET" Whisky has always been to the fore, and its superiority will enable it always to maintain position.

" Fhairshon had a Son
" Who married Noah's Daughter
" And nearly spoilt ta Flood
" By trinking up the water
" Which he would have done
" I at least believe it
" Had ta mixture peen
" Only half "GLENLIVET." "

Her establishment has also many different styles in stock. "Fajas" made to order. n266 j11 feb11

X X

The public are hereby informed that I have been instructed by Thomas MacDermott, Esq., to sell at public auction all the valuable household furniture and household belongings which adorns his imposing palace in Calle

1541--VIAMONTE--1541

between Parana and Montevideo

This important sale will take place

On Wednesday 3rd and Thursday 4th of Feb. next

at 1 o'clock in the afternoon

and I can affirm without hesitation that nothing like the contents of this mansion, has been seen, sold or heard of here before. It is the most important auction—in its kind—that takes place in South America.

The menage represents a fortune.

Over 300,000

(three hundred thousand dollars m/n legales) have been invested in decorating this most comfortable home.

It is next to an impossibility to give here the complete details, these will be seen in the catalogues which are being printed specially, to be distributed three days before the sale in the same palace and in my offices 566 Piedad.

All the household effects of whatever kind, partake of the general character of richness and elegance.

The house will be on exhibition four days before the sale, so that all parties may have plenty of time to examine closely this unique menage.

TEA
LA MAGNOLIA

INJURIOUS TEA DRINKING.

In the "Daily Post" of September 2 appears a leading article—evidently from an analytical expert—showing that after 15 minutes "draw," Indian Tea yields 17·73 of tannin, while from China comes only 7·93. What this means few know, but those troubled with indigestion may realise in part by use of True China Tea for one week.

GUARANTEED PURE.

Beware of gross imitations of this well-known mark. Sold in tins of 1, 3, 6 and 12 lbs.

AVISO

Informe sobre el Análisis Quimico del Whisky, marca "S.S.S."

Yo, el abajo firmado certifico que, a ruego de los Señores Wm. Stenhouse y Cia., Glasgow, he practicado un Análisis minucioso, y hecho examen microscópico de una muestra de

STENHOUSE'S SPECIAL SCOTCH WHISKY, de la marca
"S.S.S."

y tengo mucho gusto en certificar que el Whisky de dicha marca "S.S.S." es uno de los mejores que se me han presentado para examen analitico en mucho tiempo.

Lo encuentro enteramente puro y sin adulteracion alguna bien madurado y "especialmente adaptado para el consumo de las personas de salud delicada." Puedo recomendarlo con toda confianza

(Firmado) G. COMBE STEWART, F.C.S., M.B.P.C., etc.,
Analista Publico.
Glasgow, Escocia.

LAIDLAW'S

Tobacco Powder

Laidlaw's Tobacco Powder has many advantages over
Arsenic Powders and Pastes for curing Scab.
Arsenic Powders and Pastes have many objectionable defects
Laidlaw's Tobacco Powder has none.
Arsenic Powders and Pastes are very dangerous and in many cases large lots of Sheep, Cattle and Horses have been killed by them.
Laidlaw's tobacco Powder has no bad effects on either Sheep or men applying it.
Laidlaw's Tobacco Powder costs less than Arsenic Powders and Pastes, is always of one uniform strength and can be relied upon with perfect confidence, and does not injure the wool, but on the contrary improves the quality and increases the quantity.

ARSENIC POWDERS AND PASTES
Dry and burn the wool, and diminish the quality and quantity.

Testimonials from many of the principal Estancieros can be seen on application to th

DR. J. COLLIS BROWNE'S

CHLORODYNE.

The original and only genuine

Advice to Invalids.—If you wish to obtain quiet refreshing sleep, free from headache, relief from pain and anguish, to calm and assuage the weary achings of protracted disease, invigorate the nervous media and regulate the circulating systems of the body, you will provide yourself with that marvellous remedy discovered by D. J. Collis Brown, (late Army Medical Staff), to which he gave the name of CHLORODYNE, and which is admitted by the profession to be the most wonderful and valuable remedy ever discovered

CHLORODYNE is the best remedy known for Coughs, Consumption, Bronchitis Asthma.

CHLORODYNE acts like a charm in Diarrhœa, and is the only specific in Cholera and Dysentery.

CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitation and Spasms.

CHLORODYNE is the only palliative in Neuralgia, Rheumatism, Gout, Cancer, Toothache, Meningitis, etc.

From Symes & Co', Pharmaceutical Chemists, Medical Hall, Simla, January 5, 1880. To J. T. Davenport, Esq., 33, Great Russel Street, Bloomsbury, London. Lear Sir,—We embrace this opportunity of congratulating you upon the widespread reputation this justly esteemed medecine, Dr. J. Collis Browne's Chlorodyne, has earned for itself, not only in Hindostan; but all over the East. As a remedy for general utility, we must question wether a better is imported into the country, and we shall be glad to hear of its finding a place in every Anglo-Indian home. The other brands, we are so sorry to say, are now relegated to the native bazaars, and, judging from their sale, we fancy their sojourn there will be but evanescent, we could multiply instances "ad infinitum" of the extraordinary efficacy of Dr. Collis Browne's Chlorodyne in Diarrhœa and Dysentery, Sapasms, Crampas, Neuralgia, the Vomiting of Pregnancy, and as a general sedative that have occurred under our personal observation dury many years. In Choleraic Diarrhœa, and even in the more terrible forms of Cholera itself, we haye witnessed its surprisingly controlling power. We have never used any other form of this medicine than Collis Browne's from a firm Conviction that it is decidedly the best, and also from a sense of duty we owe to the profession and the public, as we are of opinion that the substitution of any other than Collis Browne's is a deliberate Breach of Faith on the part of the Chemist to prescribe and Patient alike. We are, Sir, faithfully yours, Symes and Co., Members of the Pharm. Society of Great Britain. His Excellency the Viceroy's Chemists.

CAUTION,—Vice-Chancellor Sir W. Page Wood stated that Dr. J. Collis Browne, was, undoubtedly, the Inventor of Chlorodine; that the story of the defendant Freeman was deliberately untrue, which he regretted to say, had been sworm to.—See the "Times," July 13, 1864.

Sold in bottles at 1s. 1 1/2d., 2s. 9d., 4. 6d., and 11s. each. None is genuine without the words "Dr. J. Collis Browne's Chlorodyne" on the Government stamp. Overwhelming medical testimony accompanies each bottle.

CAUTION.—Beware of Piracy and Imitations.

Sole Manufacturer—J. T. DAVENPORT, 33 Great Russell Street, Bloomsbury, London

2,000 Esplendidas Vacas
Durham, mestizas

con novillada y con 30 toros padres puros, procedentes del renombrado establecimiento "Miraflores," propiedad del Señor Don Exequiel Ramos Mejias. El remate tendra lugar en las inmediaciones de la estacion Julio Arditi (F. C. de la Magdalena.)

El Domingo 21 de Febrero
a la 1 de la tarde

Las vacas que ofrecemos en venta son especialisimas y pocas veces se presentan ocasiones como estas de hacerse de inmejorables planteles.

Estas haciendas proceden de un rodeo de vacas mestizas que formó a eleccion el Sr. Ramos Mejia y cuyos novillos se han vendido siempre a precios muy elevados, habiendose obtenido hasta 100 pesos cada uno.

Hace muchos años que estas vacas se han reproducido con toros puros de inmejorable sangre y anualmente se han hecho depuraciones y limpiezas, dejando solo lo muy bueno y sacando lo inferior para consumo o para venta.

Los 30 toros son puros por cruzamiento, pues tienen 50 años de mestizacion, siempre con inmejorables reproductores de las buenas cabañas de Inglaterra.

La venta será en lotes para planteles al gusto de los interesados.

Un tren expreso saldra de la Estacion Central a las 10.25 a.m. regresando una vez concluido el remate. Mas datos a nuestra casa Alsina 480 y 482.

HORSFORDS
ACID PHOSPHATE

The best Tonic known, furnishing sustenance to both brain and body.

Relieves the feeling of lassitude so common in summer, and imparts vitality.

Used in place of lemons or lime juice it will harmonise with such stimulents as are necessary to take.

A teaspoon added to a glass of water, and sweetened to the taste, will be found refreshing and invigerating.

May be obtained of all Chemists or Druggists.
